Message

Up for sale is a classic collectible Commodore 64 breadbin computer system complete with power supply, A/V composite cable and Commodore C2N Datasette.

- Machine comes tested and working. Passes C64 diagnostic cartridge confirming all ports and major chip I/C's in working order.
- Also tested on games, demos, SID high voltage collection with no problems.

Machine cleaned and major I/C chips heatsinked to keep cool and prolong life!

- C64 tidy, clean unit and in very good condition.
- Commodore C2N Datasette cleaned, aligned and loads tapes.
- Supplied with A/V cable enabling easy connection to most current TV's and devices. (I can supply a composite or chroma luma cable depending on your requirements).
- Comes with a tape with games:

Saboteur, Critical Mass, Combat Lynx, Turbo Esprit

Overall a great package to suit the retro enthusiast!

** Monitor not for sale for demonstration purposes only. **

- Can organise pack and post for extra. Estimate courier ~\$25 Contact for info.
