

COLIN RONAN is the author of many books on astronomy and the history of science. He studied the history and philosophy of science at London University and worked for 15 years as a senior member of the secretariat of the Royal Society. He has written a biography of Galileo, conducted research on the early history of the telescope and served as contributor to the Encyclopedia Britannica, Dictionary of Scientific Biography, and Interdisciplinary Science Review. He was until recently a council member of the Royal Astronomical Society.

STORM DUNLOP is a writer and translator on many of the physical sciences. He has contributed to many books on astronomy and is currently Secretary of the British Astronomical Association.

Other contributors include:

Heather Couper

Peter Gill

Dr. Ian Robson

Dr. William Somerville
