Prices

"If you need a machine and don't buy it, then you will ultimately find that you have paid for it, but don't have it" - Henry Ford

Don't let our low prices fool you. These are real industrial tools using industrial automation components in our unique low cost technology.

R12 5-axis articulated robot system

	USD	EUR 🗀	GBP 🔀
Basic	7500	6800	6000
Encoders	1100	950	850

R12-six 6-axis robot system

	USD	EUR 🜕	GBP
Basic	9000	8000	7200
Encoders	1100	950	850

Prices include robot, controller, all cables, teachpad, software and manuals.
Gripper not included, see options table below.

R17 articulated robot system

	USD	EUR 🜕	GBP 📈		
5-axis	11800	10600	9500		
6-axis	14300	12900	11500		

R17-HPL higher payload version

	USD	EUR 🜕	GBP 📈		
5-axis	12500	11200	10000		
6-axis	14750	13250	11800

Other options: please ask for details

- Collision protection
- 8-line opto-isolator for multi-IO 24v DC supply
- Gripper confirmation sensor
- Linear Track

Low RF

All ST Robots and controllers are shipped in special transit cases, engineer-designed to withstand rough handling and drops. The cases are made from polypropylene board, with aluminum frame, steel corners, steel hinges and lockable latches, lined with dual density foam. The robot is bolted to a panel at one end to protect against high G forces end on. See R12 case left. The K11R controller case has an additional compartment for storage of cables and accessories.

The cases are normally returned and recycled and their cost is refunded. We use only Fedex international priority and are unable to use customers carrier except for Australia, New Zealand and China.

____ Notes:

- ST robots are available only to bona fide institutions and businesses and not to consumers.
- We regret it is our firm policy not to give references. The number of new enquirers is too great and we do not wish to inconvenience our existing customers. However please see our testimonials.
- ST endeavors to provide high quality support as well as providing an excellent product. Almost unlimited support is offered by telephone and email for the first user only. Support is also provided during the warranty period for any breakdown or apparent breakdown. Outside of that, in order to provide premium support, ST needs to recover the costs associated with knowledgeable advice and prompt resolution. As such, ST may need to charge to facilitate servicing your request.
